

Qunex 3

Advance Product Information

QUNEX[®] 3

30TH ANNIVERSARY INTERCONNECT

Product Description

QUNEX 3 is the latest addition to the QED interconnect range. Designed for use in specialist line-level audio applications, including SACD and DVD-Audio systems, QUNEX 3 offers extraordinary sound quality for its modest price - making it an ideal partner for QED's Silver Anniversary loudspeaker cable.

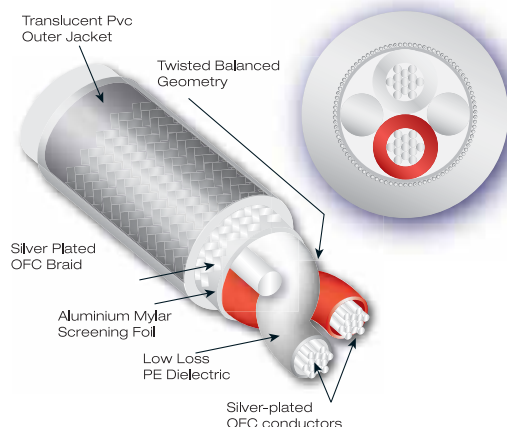

A combination of the finest materials and precise geometry, gives this cable true high fidelity sound performance. This dual balanced design uses Silver-plated 99.999% Oxygen Free Copper conductors with low-loss PE dielectric for optimum signal transfer. Whilst the dual screen of Mylar foil and tightly woven SPOFC braid, guarantees immunity from detrimental external interference.

The translucent PVC outer jacket not only offers great flexibility, but minimises harmful mechanical vibration.

QUNEX 3 is fitted with 24ct Gold-plated QUNEX[®] phono plugs, which ensure the best possible connection and dependable long-term operation.

This cable is directional. The arrows indicate signal direction.
Available as: QN/0.5 0.5m and QN/1 1.0m terminated lengths.

Cable Cut-Away

Technical Specification

Capacitance 133pF/m.
Loop Inductance 0.6uH/m.
Core resistance \leftarrow 0.1 ohms/m.
Dissipation Factor: 10kHz: 0.008
Nominal outside diameter 6.1mm
